## Climate change

363. 738 HUD

Explores climate change, including what it is, how it affects individuals, communities, and the world, and how to approach different perspectives about this issue.

## Forensic investigations of the ancient Chinese

J 931 HUD

"What can modern forensic tools teach us about existing and . . . uncovered artifacts from ancient Chinese dynasties? How can we learn about human migration from the discovery of preserved bodies? Can . . . technology uncover . . . clues about the Great Wall of China? Dive into this . . . title, which examines how forensic science has allowed scientists, archaeologists, and historians to solve mysteries and answer questions about ancient China"--Amazon.

## Forensic investigations of the ancient Egyptians

J 932 BOW

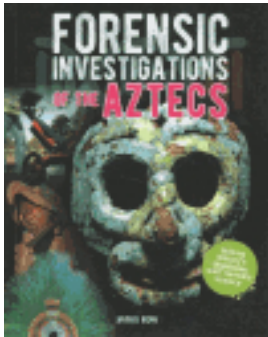

"Can modern forensic tools help us uncover . . . clues about who built the Great Pyramid at Giza? What can mummy forensics teach us about the mummified remains of Egyptian royals? How does the forensic analysis of Egyptian coffins help identify an unknown cause of death? Readers will . . . [examine] how forensic science has allowed scientists, archaeologists, and historians to solve mysteries and answer questions about ancient Egyptians"--Provided by publisher.

## Forensic investigations of the ancient Greeks

J 938 HUD

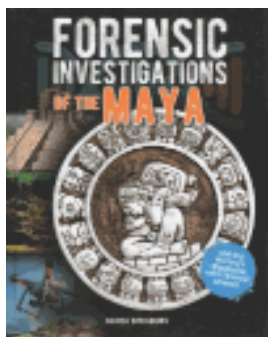

"How can modern DNA analysis of ancient tombs help us learn more about life in ancient Greece? Can ground-penetrating radar reveal hidden city structures? What can we learn from 3D recreations of ancient Greek structures, artifacts, and art? Curious readers [will examine] how forensic science has allowed scientists, archaeologists, and historians to solve mysteries and answer questions about ancient Greece"--Amazon.

## Forensic investigations of the Aztecs

J 972 BOW

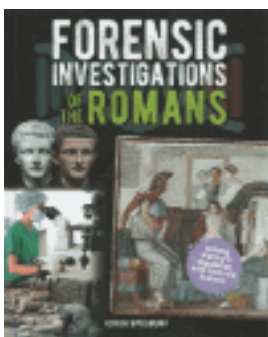

"How can modern forensic tools help solve the mystery of ancient Aztec skull masks? What can we learn about Aztec life from the forensic analysis of their art? Can chemical analysis teach us about how Aztecs treated disease--and why millions were killed in an epidemic? This . . . title offers answers to these questions and more as it examines how forensic science has allowed scientists, archaeologists, and historians to solve mysteries and answer questions about the Aztecs"--Provided by publisher.

## Forensic investigations of the Maya

J 972. 81 SPI

"What can modern DNA analysis of skeletons tell us about the lifestyle, diet, and beliefs of the Maya? How can . . . mapping technology uncover previously hidden Mayan cities and structures? Can we use forensic science to solve the mystery of how the Mayan civilization came to an end? Examines how forensic science has allowed scientists, archaeologists, and historians to solve mysteries and answer questions about the Maya"--Provided by the publisher.

## Forensic investigations of the Romans

J 937 SPI

"Can modern DNA analysis uncover clues about the ancestry and migration of Romans? What . . . information can forensic science teach us about the fate of the citizens of Pompeii? How can X-rays help us analyze ancient art to learn about ancient Roman life? Examines how forensic science has allowed scientists, archaeologists, and historians to solve mysteries and answer questions about ancient Rome"--Amazon.

## How robotics is changing the world

303. 48 HUL

Explores the role of robotics in medical care, education, military, exploration and more.

## How the Internet is changing the world

302. 23 STE

Discusses the history of the Internet and how it has impacted daily life.

## How vaccines changed the world

615. 3 NAR

Explores the history of vaccines, including how it affects the body, diseases, the backlash it got, and more.

## #MeToo movement

362. 88 HUD

"A movement begun a decade ago by American activist Tarana Burke, #MeToo went viral in 2017, changing the way people look at sexual harassment and assault of women. This . . . title encourages readers to examine silence breaking and the multiple issues related to the issues of power, gender equality, and violence"--Provided by publisher.
